

Child protection policies & procedures Working Together update

The new Working Together guidance will be an ideal opportunity to update your child protection procedures.

Within two weeks of publication, Reconstruct can supply you with a report detailing the differences between the old and the new Working Together. This will be available as one of our renowned easy to read papers that you can email to all staff.

Within 6 weeks of publication you can have a new set of web-based procedures (in line with the new Working Together) either based on your existing procedures or on our standard set, tailored for you.

The price remains £5,000.

Book now to avoid disappointment. We will only be able to supply this for a limited number of safeguarding children boards. If you are already a subscriber to our service we will be supplying this update to you as part of your normal fee.

Our web-based procedures are:

- easy to navigate – no specialist knowledge needed
- written in plain English
- simple to keep updated
- written and designed by a team of child protection professionals who understand your needs
- supported by research and examples of good practice readily accessible from within the web-based system.
