

Working Together - 2010 and beyond

The Working Together guidance is about to be further updated and is an ideal opportunity to update your child protection procedures.

Within 8 weeks you can have a new set of web-based procedures either based on your existing procedures or on our standard set, tailored for you. This includes updates to reflect changing guidance as and when they happen, so that you are never out of date.

The price remains £5,000.

If you are already a subscriber to our service we will be supplying updates to you as part of your normal fee.

Our web-based procedures are:

- easy to navigate – no specialist knowledge needed
- written in plain English
- simple to keep updated
- written and designed by a team of child protection professionals who understand your needs
- supported by research and examples of good practice readily accessible from within the web-based system.
